# THE STRENGTH OF LIBERTY THE POWER OF COMMUNITY

The Liberty Fund unites the community and Liberty High School through philanthropy. The partnership between the private sector and the school helps ensure the success of Liberty's future generations. The Liberty Fund supports programs that ensure all Liberty students have access to opportunity, and helps prepare them to be leaders in our community, state, and country. The Liberty Fund depends on contributions and investments from individuals and area businesses to fulfill its mission.

## THE LIBERTY FUND SUPPORTS

### BUSINESS PROFESSIONALS OF AMERICA:

BPA is for students interested in the business world, including graphic design, video production, computer programming, entrepreneurship, Human Resources, and building leadership skills. The Liberty Fund helped BPA travel to the 2019 state, regional, and national BPA competitions.

### LIBERTY STORM:

Liberty's premier show choir offers students the opportunity to perform and compete at festivals across the state of Iowa. In 2018-19, The Liberty Fund provided scholarships to help cover student participation fees.

### STRING THEORY:

String Theory is Liberty's student-run extracurricular string ensemble. String Theory provides students with the opportunity to produce collaborative performances, and experiment with their instruments in real-life performance venues. The Liberty Fund provided scholarships for students to attend the 2019 Wintergrass Youth Orchestra Festival in Seattle, Washington.

### LIBERTY SPARKLES:

The Sparkles are an all-inclusive cheerleading team providing opportunities for students of all abilities to champion Liberty Pride – Go Bolts! The Liberty Fund helped purchase additional cheer uniforms for the 2019-20 season.

### GARDEN CLUB:

The Garden Club uses the outdoors as a classroom to connect students to their world, providing a greater appreciation for where our food comes from. In 2018-19, The Liberty Fund purchased materials to set up the school garden, including lumber for raised beds and gates. The materials were constructed by Industrial Tech students, the fresh produce will be used in the Culinary Arts program, and the beauty will provide inspiration to our Fine Arts students.
